Module 1: Fundamentals of University & UKVI Credibility Interviews

Comprehensive Study Notes

1. Purpose of the Credibility Interview

- **The "Genuine Student" Rule:** UK Visas and Immigration (UKVI) and UK universities conduct credibility interviews to verify that an applicant's primary purpose for coming to the UK is academic study, not illegal work or permanent settlement.

University of Bath Intern...

- **Entry Clearance Officer (ECO) Role:** The ECO assesses whether the candidate possesses sufficient English proficiency, genuine academic intent, and realistic financial backing.

Garth Coates Solicitors

- **University Pre-CAS Interviews:** Before issuing a Confirmation of Acceptance for Studies (CAS), universities conduct internal credibility interviews to safeguard their UKVI Student Sponsor License. A high visa refusal rate jeopardizes a university's ability to sponsor international students.

2. Institutional Framework

- **Pre-CAS Interview (University):** Conducted by admissions or compliance teams. Focuses on academic background, suitability for the course, and basic financial capability.
- **UKVI Credibility Interview (Home Office):** Conducted online or via phone (often by video link from a VFS/TLS visa application center). Focuses on detailed verification of financial sources, course details, and long-term career logic.

Garth Coates Solicitors

3. Key Assessment Indicators

- **Academic Fit & Progression:** Explaining why this specific degree is a logical next step based on prior qualifications or work history.

Garth Coates Solicitors

- **Language Proficiency:** Candidates must converse fluently without relying on interpreters, scripts, or external help.

Total student care

- **Relevance of Choice:** Ability to explain why the applicant chose the UK over their home country or alternative destinations (e.g., USA, Canada, Australia).
